

PCIM Asia 2011

International Conference & Exhibition for Power Electronics, Intelligent Motion, Power Quality

Venue: Shanghai International Convention Center, China
Date: 21 – 23 June 2011
Frequency: Annual

Power Electronics is the key cross-functional technology for the whole power supply infrastructure of China. The availability of a reliable energy infrastructure is the prime mover of the economical growth and the precise control of electrical energy is the basis requirements for the efficient use of electric power.

PCIM (= Power Conversion Intelligent Motion) is the leading meeting-point in China for experts out of the areas Power Electronics and its applications in Intelligent Motion, Power Quality and Energy Management. PCIM China offers a comprehensive overview about latest developments of power semiconductors, passive components, products for thermal management, new materials, sensors as well as servo-technology and the wide area of energy-management.

CONFERENCE

Conference Director: Prof. Leo Lorenz, Infineon Technologies China Co. Ltd., China

Advisory Board: International experts guarantee the high quality standard of the conference:
Jean-Paul Beaudet, APC by SCHNEIDER ELECTRIC, F
Yongdong Li, Tsinghua University, CN
Gourab Majumdar, Mitsubishi Electric Corporation, J
Norbert Pluschke, SEMIKRON (Hong Kong) Co. Ltd., HK
Xinbo Ruan, Huazhong University of Science and Technology, CN
Zhihong Wu, Tongji University, CN
Dehong Xu, Zhejiang University, CN
Dianguo Xu, Harbin Institute of Technology, CN
Jianping Ying, Delta Electronics (Shanghai) Co. Ltd, CN
Dapeng Zheng, Emerson Network Power Co Ltd, CN

Technical Committee: Nearly 15 international specialists support the conference with their knowledge and expertise and promote the conference in the Chinese market

Program: In a review process each paper is evaluated by at least 2 experts out of the advisory board and technical committee; 56 presentations including 3 keynotes international well-known speakers are presenting their latest application oriented power electronics results and products at the event; The industrial session is specially conducted as well.
All papers are published in the PCIM Asia Proceedings and on CD

Participants: 368 conference participants

Language: English

Target Group: Experts from research and development fields. With its emphasis on applications and practical issues, the conference offers the ideal environment to discuss the problems of today and tomorrow.

EXHIBITION

Exhibition Area PCIM 2011 SQM:	3.300
Exhibitors PCIM Asia 2011:	50 Exhibitors (10% increases than 2010)
Main Exhibits:	Power Semiconductors Components and Modules Bipolar Transistors Darlington Transistors Diodes Semiconductor Relays IGBTs Power Modules and Power Hybrids MOSFETs Fast Recovery Rectifiers Silicon Semiconductor Devices Smart Power ICs Thyristors
Global Players Participating 2011:	Mitsubishi, Semikron, Fuji, Infineon, Vincotech, LEM and more
Visitors of the Sectors:	Industrial Electronics Automotive Engineering Household Technology Computer & Communication Medical Electronic Telecommunication Consumer Electronics Energy Management
Organizer:	<p>Mesago PCIM GmbH Rotebuehlstrasse 83-85 D-70178 Stuttgart www.mesago.de</p> <p>i2i Group www.i2i-m.com</p>  
Contact:	<p>Alexander Kaiser (International) Tel: +49 711 61946-56 Fax: +49 711 61946-93 Email: Alexander.Kaiser@mesago.com</p> <p>Gavin Hsu (China) Tel: +86-10-65331960/61 Ext. 603 Fax: +86-10-65331959 Email: gavin@i2i-m.com.cn</p> <p>Chen Guoyong (China) – Project Manager Tel: +86-10-65331960/61 Ext. 607 Fax: +86-10-65331959 Email: cgy@i2i-m.com.cn</p>
